MEET

KIM

GRADUATE TEACHER 2020-21

I cannot fault my experience of The Mead Teaching School. My expectations have been exceeded and the support from the Teaching School is fantastic, any problems have been dealt with swiftly and we have been made to feel part of each school we've been placed in. I feel very lucky to have received training from subject specialists, especially with regards to behaviour management and SEND support. The training has been easy to access and the resources to support our own practice have been really useful.

The support from both of my mentors have been phenomenal and I have felt really looked after and supported, but I have also been challenged within my own practice to help me grow. My mentors have been a joy to work with and great to observe, they are both brilliant teachers. I have been able to learn so much and ask so much, no question has been too silly, and each query and worry has been heard.

I would highly recommend the course to those who are considering teaching, the training is organised, well-structured, and easy to access. I have thoroughly enjoyed my time on the School Direct course and cannot wait to start my adventure as a full-time teacher.

I honestly have had the best time training with The Mead Teaching School. I feel very lucky.

Best wishes,

Kim

There are places available on our School Direct programme starting September 2022. Find out more at
